Lemuel Lee

ASPIRING QUANTITATIVE ANALYST

Phone: +44 7597 243186 fluent in English, Cantonese, Mandarin

Email: lemuellee.kl@gmail.com

Links: lemuellee.com github.com/LemuelKL

EDUCATION

• M. Sc. in Environmental Data Science and Machine Learning Imperial College London

• B. Eng. in Computer Science

The University of Hong Kong 2024

- Minor: Sustaining Cities, Cultures, and the Earth
- Elective Focus: AI & Robotics
- Thesis: Graph Representation Learning on International Electricity Market
 - * supervised by Dr. Chao Huang
- Study Abroad in Computer Science

Royal Holloway, University of London

2023

2025

WORK EXPERIENCE

LOW CARBON CONTRACTS COMPANY

LONDON

• Modeller Intern Summer 2023

- Contributed to a Databricks PySpark Monte Carlo energy market forecasting model supporting company's role as the regulatory CfD counterparty for low-carbon generators
- Architected distributed machine learning infrastructures for modelling interconnectors and pumped storages, with automated model selection and retraining

SHATIN PUI YING COLLEGE

Hong Kong

• Question Writer & Programmer

- Summer 2022
- Developed test cases for precision, extreme values, edge cases, and time complexity
- Prototyped web service for converting HTML+KaTeX to MS Word document
- Full Stack Developer

Summer 2021

- Architected, developed, and deployed a multi-user end-to-end e-ticketing solution
- Automated and optimised event scheduling and staff allocation tasks
- Question Writer & Programmer

Summer 2021

- Authored Mathematics and Physics questions in an in-house domain-specific language for generating typesets, graphs, and 3D graphics
- Featured on Sing Tao Daily, oldest and second-largest Chinese newspaper in Hong Kong

TEACHING EXPERIENCE

FACULTY OF ENGINEERING, THE UNIVERSITY OF HONG KONG

• Faculty Peer Mentor for first-year engineering students

2023-2024

• Staff-Student Consultative Committee student representative

Fall 2023

DEPARTMENT OF COMPUTER SCIENCE, THE UNIVERSITY OF HONG KONG	
() () () () () () () () () ()	all 2023
	ng 2022 all 2021
• Teaching Assistant for Computer Programming I (ENGG1330) Dr. Dirk Schnieders	
Scholarships	
• HKU Worldwide Undergraduate Student Exchange Scholarships	2023
• South California Pui Ying Alumni Association Scholarship	2019
• South California Pui Ying Alumni Association Scholarship	2017
Competitions	
• Invitee in Hong Kong Counter-Strike 1.6 Retro LAN Showmatch TiG (ASUS sponsored)	2023
• Finalist vs Berkeley, Imperial, Yale, Stanford in Algo Crypto Trading Challenge Algogene	2023
• 2nd in Electronic Trading Challenge Jane Street Capital	2022
• HKU 6th InnoShow The University of Hong Kong	
• 2nd in Mini Robotic Car Competition City University of Hong Kong	
 Code For Good Hackathon J.P. Morgan Cathay Pacific 	
Coursework	
COURSEWORK 1. Spatial temporal graph neural network modelling of European electricity market	
Coursework 1. Spatial-temporal graph neural network modelling of Europrean electricity market with models based on GATs, STGCN, and Transformer	A
1. Spatial-temporal graph neural network modelling of Europrean electricity market	
1. Spatial-temporal graph neural network modelling of Europrean electricity market with models based on GATs, STGCN, and Transformer	
 Spatial-temporal graph neural network modelling of Europrean electricity market with models based on GATs, STGCN, and Transformer Statistical image classifier without neural network or convolutional kernels External domain-specific language for 3D CAD with Backus-Naur form parser, elided Structural Operational Semantics rules, and interpreter in action semantics 	op 10%
 Spatial-temporal graph neural network modelling of Europrean electricity market with models based on GATs, STGCN, and Transformer Statistical image classifier without neural network or convolutional kernels External domain-specific language for 3D CAD with Backus-Naur form parser, elided Structural Operational Semantics rules, and interpreter in action semantics Powered by JavaFX and ART A. Johnstone, E. Scott, Translator generation using ART Linux shell in C with program execution, signals, background processes, piping, and process statistics Offensive cyber-security Unity game with emulated Linux DE with shell, file-system, networking, and 	op 10% A A
 Spatial-temporal graph neural network modelling of Europrean electricity market with models based on GATs, STGCN, and Transformer Statistical image classifier without neural network or convolutional kernels accuracy to a	op 10% A A users
